

Purpose of Usage

- It helps to superior activity against polar mycotoxins such as Aflatoxin, Ochratoxin and Fumosin.
- It helps to minimize the impact of these toxins which can affect the liver and kidney and exacerbate the effect of mixed toxins on the Animal, even if only a small poportion involve polar toxins.
The low pH of 5.0 will not buffer the natural stomach acids, which benefits the gut environment. This pH provides the most suitable condition for maximizing the activity of the Beta Glucans.
- It helps to accelerate the development of poultry and cattle metabolism and provide rapid weight gain.

YEAST BASED TOXIN BINDER 20% & B C COMPLEX PER 1 KG COMPOSITION

Bentonite	250000 mg
Clinoptionlite	150000 mg
